Three British Battleships Sunk In North Sea Valued at \$12,000,000 And Carried to Death 1,754 Men

(By Associated Press.)
LONDON, Sept. 23.—(One thousand to fifteen hundred officers and men were lost when three British cruisers were sunk by German submarines, according to unofficial estimates. Reports that two of the attacking submarines were sunk lack confirmation. The dispatches say the Cressy went down fighting. The cruisers were worth twelve millions. The affair was over in twenty minutes. Some of the survivors say five submarines were in the attacking force. A young midshipman on the Aboukir, which was first to sink, was thrown into the water by force of the explosion, picked up by boats from the Hogue and Cressy in turn as they were struck and finally rescued.

HARWICK, Sept. 23.—The Great Eastern hotel, which was converted into a hospital at the outbreak of war, is filled with survivors of the North sea naval disaster. The men say the loss of life was heavier on the Aboukir. Most of the men below.

EASTERN BORDERS PRUSSIA IN DIRECT PERIL FRENCH LOSSES SAID TO BE ENORMOUS

(By Associated Press.)
LONDON, Sept. 23.—The fall of Jaroslau, an Austrian fortified position in Galicia, is regarded as the most decisive stroke in the continental battlefields during the last twenty-four hours. The Russians who took Jaroslau by storm and are in hot pursuit of Austrians on the road to Cracow.

It is believed the Russians are planning to join forces and march on Breslau. The Russians are resuming the offensive against Germans in east Prussia again and are preparing to attack Koenigsberg.

BERLIN, Sept. 23.—It is officially stated that the Russians lost in the battles near Tannenberg 92,000 captured and 150,000 killed.

(By International News Service.)
PETROGRAD, Sept. 23.—With Jaroslau in their hands as the result of a bombardment lasting only two days, the Russian army expects soon to capture Przemyal. This fortress is the last obstacle to a direct march upon Tarnow and Cracow. Its capture is not essential to the plan of the Russian general staff but, if its reduction can be accomplished, a large force of men who would otherwise be held back by its investment, would be freed for field service.

General Ruzsky reports the capture of Jaroslau was made without heavy loss to the Russians that besieged it, but the Austrian garrisons of twenty-three forth there suffered terribly. More than 6,500 were killed or wounded by the fire of Russian siege guns.

It is reported at headquarters that the Russians took more than 25,000 prisoners, large quantities of ammunitions, supplies and 64 guns, besides many rapid fire. Some Austrian troops attempted to retreat to Przemyal as the forts were being battered to pieces, but were cut off by Cossacks who crossed the river at San At Radymao.

BELGIANS ENGAGE GERMAN INVADERS OVER LARGE AREA

COOPERATING WITH ALLIES BY DELAYING MOVEMENTS OF REINFORCEMENTS.

(By International News Service.)
ANTWERP, Sept. 23.—Sharp fighting continues in northeastern Belgium between King Albert's army and the Germans, who are reported in contact near Malines and around Tervuren in the vicinity of Andermarde, some fifteen miles southwest of Ghent.

It is the obvious intention of the Belgian army to co-operate with the allies in France by engaging the Germans over as large an area as possible in Belgium to prevent reinforcements being sent west. King Albert's forces also are working southward toward Brussels to menace the German lines of communication. It is reported the advance guard of one Belgian force has engaged the German outposts only 13 miles from Brussels.

While returning from a hunting trip last Tuesday evening Gus Smith, the 11-year-old son of Mrs. Grace Smith, formerly of this place, met with quite a serious accident, says the Yerington Times. It was supposed not to be loaded. The charge of shot tore the flesh and muscles from Gus's right arm between the wrist and elbow and made a frightful wound.

Political Parties Denounce Crime

CARSON, Sept. 23.—The Democratic and Republican candidates assembled freely discussed the attack with dynamite on the office of the Tonopah Bonanza last night, and members of the Typographical union suggested to each party convention the adoption of resolutions condemning the attack on the Bonanza and its editor, W. W. Booth.

The resolutions submitted are as follows:

From Republicans.
"Whereas, It has come to our attention that the office of the Tonopah Bonanza, a daily publication of Tonopah, Nev., was, on the morning of September 23, partially demolished by an explosion of dynamite, and

"Whereas, It is generally believed that such explosion was the act of members of an organization commonly known as and called the I. W. W.; that the powder was exploded with the sole intention of damaging the said property and perhaps hoping that the life of the proprietor would be sacrificed by the explosion; and

"Therefore, We, the candidates of the Republican party, in convention assembled, do condemn the action of the said I. W. W. and pledge ourselves to uphold the principles of free speech among men and the freedom of the press and do extend to the Tonopah Bonanza, our sympathy in the loss sustained in standing for principles of justice, equality and right."

NEVADA'S CREDIT RANKS HIGH IN WORLD RECORDS

PER CAPITA DEBT THE SMALLEST OF ANY STATE IN UNION.

(Special to the Bonanza.)
WASHINGTON, D. C., Sept. 23.—The United States department of commerce and labor has just completed a report giving the indebtedness of the different states of the union, the nation and world. The data contained in the compilation relate to the year 1912. The state debt of Nevada is shown to be \$671,000 that year, compared with \$436,000 thirty years previous, which is an increase of \$235,000. The per capita state debt of this state in 1912 was \$6.70 and \$6.03 in 1880. At the present time about one-tenth of one per cent of the population of the United States is in Nevada and two-tenths of one per cent of the total debt is credited to this state.

The national debt of the United States is \$1,028,000,000 and the indebtedness of all countries of the world is \$42,000,000,000. European countries owe about two-thirds of the world debt and their proportion is rapidly increasing, as the present war, according to experts, is costing on an average of \$50,000,000 per day.

DEFEAT IMPENDS AND DISASTER PRESAGED BY FRANCE

EXPECTED THAT ANY HOUR ALIES MAY ENCIRCLE GERMAN WING.

(By International News Service.)
PARIS, Sept. 23.—Gen. Von Kluck's army, comprising the German right wing, is nearer disaster than at any time since the battle of Marne.

Terrific fighting between allies and Germans is reported in the district around Amiens, 70 miles north of Paris, where the French and British are continuing vigorous efforts to encircle the German right wing to compel either a retreat toward Belgium or else press against the allied forces occupying the heights along the Aisne river.

The most furious fighting is taking place along the left flank, where the British and French are putting forth superhuman efforts to swing back the German line, thus compelling a retreat of the entire German host from the strong positions they have occupied since the battle of Aisne began.
